

A LABOR CONFERENCE

CALL FOR AN ORGANIZED LABOR CONFERENCE TO BE HELD

The Partisan Action of the Courts—Proposition of Mine Operators to Arbitrate as to Pittsburgh District Rejected—To Push the Strike in West Virginia—Marching at Plum Creek—Wholesale Arrests Expected—Address of the Operators

Columbus, Ohio, August 20.—The National Executive board of the United Mine Workers adjourned today after having issued a call for a conference of organized labor to be held in St. Louis. The board rejected the proposition of the Pittsburgh operators for a conference to arbitrate the wage dispute in that district, claiming that such action would be prejudicial to the interests of the miners at large. The board is ready to consider overtures for the arbitration of the issues of the great strike only when the overtures come from all the operators in the competitive district which includes Ohio, Indiana, Illinois, West Virginia and Pennsylvania. The board has decided not to deviate from the established policy until the result of the St. Louis conference is known. The aggressive work in the West Virginia strike in the West Virginia district renewed. The success or failure of the strike hangs upon the St. Louis conference, the call for which has been endorsed by Samuel Gompers, president of the American Federation of Labor, and J. R. Sovereign, general master workman of the Knights of Labor. At the St. Louis conference all labor organization will be asked to join issues with the miners. The failure to secure a general suspension in West Virginia has greatly interfered with the prospects of success, as the coal supplied from that and the few isolated districts is meeting the limited demand. The courts have been cutting this supply appears to lie in the refusal of organized labor in the ordinary channels of traffic and business to handle or use this coal. If the object of the St. Louis conference is accomplished the strike will be extended to nearly every branch of labor in the country.

The call, among other things, says: "The tyrannical and un-American injunctions of the federal and state courts are revolutionary as first principles of free government and derogatory to the inherent rights of the masses, endangering the public peace and destroying the personal security and individual liberties of the common people. The courts have deserted the temple of justice and now stand forth as the bulwark of the oppressor. They have set up one standard of rights for the rich and another for the poor. They decree that capital is always right and labor always wrong. They have made it unlawful for starving people to appeal against tyrannical treatment, present or future, and just and peaceable terms for the redress of insufferable wrongs. But it is no longer a mere struggle between employer and employee. The judiciary has assumed the indefensible claims of the operators and the struggle is between tyrannical courts and the whole people. The courts, although under oath to serve the rich and poor alike, have volunteered to defend the selfish interests of the rich as against the God-given rights of the poor, and now threaten to turn the Gatling guns and Winchester of criminals and thugs against all who dare protest against their despicable restraining orders. The judiciary is prostituted to the bidding of oppressive capital, has placed the rights of property above the rights of persons and has discriminated against the many in the interest of the few."

Pittsburg, August 20.—Secret work among the working miners is to be continued on a large scale. There were no men at Sandy Creek camp, though it is said an effort may be made to resume there. Operations are also temporarily suspended at Turtle Creek. One hundred and seventy-five men marched from Camp Isolation at Plum Creek this afternoon. They marched to Unity and were stopped at Plum Creek by the deputies. The injunction was read to them, but they refused to obey. They then marched to New Texas and returned with the farmers from that section who were making a demonstration in sympathy with the strikers. The strikers were joined by their wives and about 500 people at a meeting, which was addressed by Mrs. Jones, of Chicago. Captain McKay and others. Deputy Sam Young telegraphed to the sheriff to come to the scene. Wholesale arrests are expected to follow the arrival of the sheriff, and, as both sides are wrought up to the highest pitch, there is no telling what the result may be.

There was trouble at the strikers camp near the Bunola mine during the morning, and a number of strikers were arrested for violating the injunctions. Arrests were also made at Camp Victory, Carnonsburg. A constable appeared in camp with warrants for twelve men but could only find two of them. The others had anticipated arrest and left the camp before the officer arrived.

The coal operators in their meeting tonight after waiting in vain for an answer from President Ratchford to their telegram asking for a conference have decided to proceed with the strike tomorrow to arbitrate the strike question, issued a statement to the public shortly after midnight. The statement was given out after a day of waiting and was precipitated by the following resolution passed today:

Resolved, That a committee be authorized in case the miners' leaders agree to confer and no satisfactory basis can be agreed upon in said conference, to propose that the matter in dispute between the miners and operators of the Pittsburgh district be submitted to arbitration, provided the miners are put to work at once pending the decision of said board of arbitration.

The operators statement says: "The operators now have exhausted every effort to make amicable settlement, but the miners will neither meet in conference or arbitrate. The position taken by Mr. Ratchford occasions great surprise to the operators. He insists in bringing in all competitive states when he knows the operators of other states under the same circumstances will attend a joint conference. In making this demand, Mr. Ratchford is seeking to delay a settlement in hope that he may bring to his aid all the labor organizations of the country and assume such political influence as will frighten the politicians into insisting upon a settlement of the strike without regard to

the merits of the case. He always insisted that the Pittsburgh district is the key to the situation and the operators hold out to him an olive branch from which is suspended the key he sought. Mr. Ratchford is using the Pittsburgh miners as a cat's paw to scratch political chestnuts off the idle coal tipples in this district. He knows very well that delay in settlement will deprive Pittsburgh miners of work which will be done during the winter by miners of the Ohio, Indiana, Illinois and Iowa regions. Mr. Ratchford must arrange a conference at once for settlement or arbitration of the troubles in the Pittsburgh coal district or he must stand accused of inconsistency and insincerity. Public opinion will certainly hold him responsible for the destitution which must inevitably prevail in the district during the coming winter."

Bicycle Trust to Be Formed.

Some of the largest makers of bicycles are now in England where they went on business connected with the trade, several weeks ago. Word has come back by cable that as a result of their visit two of the richest cycle magnates of England are on their way here to look over the field, and there is little doubt that several of the large companies will be consolidated. At the board of trade of cycle manufacturers, No. 302 Broadway, to-day, it was admitted that the consolidation was on foot, and James Sullivan, of the Spaulding Company, admitted that the reports were correct, and that the negotiations had been under way for several weeks.—New York Dispatch.

CONTINENTAL EUROPE.

Emperor William Creates a Sensation by a Toast at a Banquet—Emperor William's Political Drama—New Plan of Action Against Anarchists (Copyright by the Associated Press.)

Berlin, August 21.—At the banquet at Wilhelmshöhe, in honor of the birthday of Emperor Francis Joseph, a remark of Emperor William to General Windesgratz, the Austrian military attaché created a sensation. Lifting his glass, his majesty said: "I trust that all misunderstandings are now buried." This is generally interpreted as referring to recent events and to the Austrian jealousy created thereby.

During the presence of the king of Italy at the German military maneuvers a symbolic play written according to the instructions and on an outline furnished by Emperor William will be performed at the Royal theatre of Wiesbaden. The play will allegorically represent the fraternalization of Italy and Germany. The two leading roles are Italy and Germania and the scenic decorations, which are gorgeous, are the work of the Viennese painters, Kautsky and Rottomara, from sketches made by the German emperor. The most beautiful tableaux will represent Rome. In this scene the emperor found it desirable to make an alteration. In the original the sun was seen rising directly over St. Peter's, the rays irradiating the whole vicinity and leaving the quinal, or royal residence, in the shadow. In view of the strained relations between the Vatican and the quinal, his majesty ordered the sun in this scene to be obliterated.

Emperor William will attend the Austrian military maneuvers, arriving at Totis on September 12th and remaining there until September 15th. Then Emperor William and Emperor Francis Joseph will proceed to Mohacz to hunt stags and other beasts on the preserves of the Archduke Frederick, of Austria. On September 20th the two emperors will proceed to Budapest.

The dissatisfaction at the slowness of the Prussian and Saxon governments in giving state aid to the sufferers from the recent floods increased. Saxony has only given 60,000 marks, against 300,000 marks given by the municipality of Dresden alone. Collection lists circulated by the Saxons have been seized by the police and confiscated. In Prussia nothing will be done by the government in aid of the sufferers for months to come, and the cabinet has decided to aid Silesia only to the extent of mending the roads, rebuilding the bridges and helping the owners of farms and agricultural estates whose fields have been previously damaged. Private charity, however, is very active throughout Germany and donations are flowing in freely.

The Associated Press' correspondent learns on good authority that it is true that Emperor William has proposed a new plan of concerted action upon the part of the continental powers against anarchists and that he had obtained the promise of co-operation from a majority of them. The plan includes a uniform system of watching all those who are known to hold destructive ideas, a more effective interchange of observations and a better system of identification.

The Prussian schools have again been ordered to celebrate the anniversary Sedan day.

At the military maneuvers near Dabberitz this week the third cavalry brigade of the guard corps had mated accidents. Captain Von Brocken, of the Second guard dragons, was unhorsed and killed. Six other officers were seriously injured and twelve men were injured or crippled for life.

His majesty has conferred the royal crown order of the second class upon Slatin Pasha, the Austrian officer, for many years a prisoner of the Mandi in the Sudan, who was attached to the intelligence department of the Anglo-Egyptian army in the advance upon Dongola. Owing to the absence of the prince of Wales, Homburg, this season, is much less gay than usual and there is a notable dearth there of prominent Americans. The prince of Wales' choice of an Austrian resort, Marienbad, is said to be entirely due to the coolness between the prince and Emperor William and the tradesmen of Homburg are seriously concerned.

"They don't make much fuss about it," was speaking of De Witt's Little Early Risers, the famous little pills for constipation, biliousness, and all stomach and liver troubles. They never tripe. R. R. Bellamy.

Will Vote the Democratic Ticket

Richmond, Va., August 21.—Major Mann Page, president of the National Farmers' Alliance, is out in a letter to-day in which he says among other things, with reference to state politics: "I shall vote and do all I can to secure the election of Hon. J. H. Tyler the nominee for governor of Virginia, selecting him to be the choice of the people of Virginia, who have for many years recognized him as the friend of the agricultural and industrial classes. Should the populist committee, which I understand is to meet in Lynchburg September 15th, determine to keep Captain Cooke before the voters, I shall vote for him, and I trust that they will rise above party and endorse the democratic candidate for governor and attorney general."

INTERFERENCE IN CUBA.

Rumors That Our Government is About to Take Decisive Steps to Put a Stop to the Present State of Affairs—To Sound European Governments on the Question.

Washington, August 20.—Officials of the state department were very reticent today when asked concerning a report in circulation that definite instructions have been given all our foreign ambassadors and ministers in European countries to sound and ascertain the attitude of European governments in case the United States should intervene in Cuba. While general denials were made by some of them, others intimated that the United States was ready to resume the position taken by President Grant in 1874, as shown by the instructions of Secretary Fish to Minister Cushing. Although it does not appear that these instructions were carried out, and there is no knowledge of what Spain would have done in the premises, it is possible that Minister Woodford will have a different report to make. It can be stated, on information received here, that there is no truth in the report that Lord Salisbury has sent an unfavorable answer to a suggestion that the United States should interfere. The fact being that he has not replied at all to the attempt of our ambassador to sound him on the subject, and that his attitude gives reason to believe he will not oppose such action as our interests may make necessary.

Minister Woodford's instructions are to intimate to Spain that the United States will intervene unless the situation in Cuba speedily improves. This, in effect, was the instructions which were given Mr. Cushing by Mr. Fish, and it is understood that the attitude of the United States is almost identical with the position taken during General Grant's administration. Then, as now, the good offices of the United States have been asked to bring about a settlement of the war, "but," said Secretary Fish, "the well intended efforts of the United States were unwisely rejected by Spain." The secretary reviewed the situation, which presented many similar phases to that which exists now. President Grant, said the secretary, regarded independence as the only and necessary solution of the Cuban question. The attitude of the present administration is said to be on the same lines, and it is stated Minister Woodford will make it clear to the Spanish authorities that our interests will make intervention by the United States imperative unless something is done speedily by Spain to improve the present situation, disastrous as it is to all our interests.

The Michael-Starbuck Race.

New York, August 21.—Jimmy Michael, the Welsh Bicycle rider, easily defeated J. Frank Starbuck, of Philadelphia, in a thirty mile race at the Manhattan Beach track today. Although Michael had the poorer set of machines for pace-making, his pluck and stamina stood him in good stead, and he finished the contest in 65 1/2 minutes, fully two miles ahead of his American opponent. The attendance was 12,000. Both men were in perfect condition. A good deal of money changed hands on the result, but the admirers of the foreigner had to lay odds on the candidate and many bets were made in favor of Michael at 100 to 80 and 100 to 70 on.

Each contestant had thirty-two pace-makers and the Michael machine was the best professional cyclist in the country, while Michael had also good men but less formidable machines to back up. Starbuck had three sextette teams, one quintette and one quad and two triplet teams, while Michael had one sextette, one quintette, four quads and a triplet.

Both went off from a standing start and each picked up triplet paces. Starbuck got the pole, but in the second lap Michael picked up a sextette and assumed the lead. At the end of the second mile the little Welshman was 100 yards ahead and at the end of the third mile he was 400 yards ahead. From this point to the finish Michael held his lead and gained an advantage. The track is one-third of a mile around, and at the finish of the sixth mile, Michael had gained a lap on Starbuck. The fifteenth mile was run in the fastest time, 1:52. The slowest mile run was the thirty-third and last, but this could be easily accounted for. Michael's machine was nearly seven laps ahead and took things easy, covering the last mile in 2:12 1/2. From the fifteenth mile to the end of the race, Michael held every standing record previously established in a contest. When the little fellow finished his thirty-third mile the crowd jumped in on the track and Michael was carried on their shoulders to his dressing room, while his trainer and manager, Shafer, was also carried by the spectators in lively fashion across the field. Michael's wheel was geared to 106, and Starbuck's to 96.

The Presidential Outlook

Bluff Point, N. Y., August 21.—The secretary of war came back here with the president today and will stay until the party leaves. The president arrived at 7 o'clock this morning, but, being fatigued after his trip, remained in the private car until a late hour. General Alger said that the present programme of the president is to leave New York on Tuesday morning at 2 o'clock and go through to Buffalo on a special train, arriving there about 2 o'clock on Tuesday afternoon. Dr. Depew's private car will be reserved for the use of the president and his immediate party, while a combination car will serve for the other guests.

Ethan A. Hitchcock, of St. Louis, Mo., the newly appointed minister to Russia, arrived here today. He did not get a chance to see the president until nearly noon. He said to the Associated Press representative: "I came here as soon as I received my commission, to pay my respects to the president and ask his wishes as to my departure." Mr. Hitchcock's appointment dates from August 16th.

Vice President and Mrs. Hobart were numbered among the missing when President McKinley returned. Mrs. Hobart has for the past few days been in poor health and her physicians believed she would improve more rapidly at home. Upon this advice it was decided yesterday to return to New Jersey the vice presidential party left on a late afternoon train. It is expected that they will return later to finish out the season.

HORRIBLE STATE OF AFFAIRS.

A Report on the Convict Camps of Georgia—The Inhuman Treatment of the Convicts.

Atlanta, Ga., August 20.—Special Commissioner Phil C. Byrd who was appointed by Governor Atkinson last spring to investigate the condition of the county misdemeanor convict camps of the state today filed his report at the governor's office. Epitomized, the report is as follows: Robbing the convicts of their time allowances for good behavior. Forcing convicts to work from fourteen to twenty hours a day. Providing them no clothes, no shoes, no beds, no heat in winter. No ventilation in summer in which three score of convicts sleep in chains. Giving them rotten food. Allowing them to die when sick, for lack of medical attention. Outraging the women. Beating to death old men too feeble to work. Cheating the state.

The report gives names, dates and places. It tells of things which Colonel Byrd saw and heard. It is the truthful account of his trip to the camps, of visits in the day time and at night when no one knew of his coming. It is a faithful description of events of his own knowledge. Colonel Byrd visited fifty-one chain camps and has inspected 1,783 convicts. These included twenty-five county camps, two municipal camps and twenty-four chain camps operated by private individuals.

The twenty-five county camps contain 1,783 convicts, of which 3 are white women, 101 are white males, 75 are colored females and 988 are colored males. The twenty-four chain camps operated by private individuals contain 34 convicts made up of 1 white female, 27 white males, 20 colored females and 550 colored colored males. These figures refer to convicts over 16 years of age. There were about 100 under that age. The report closes as follows: "God only knows just how badly the convict camps of Georgia need systematizing and regulating. Surely there can be no genuine civilization where man's inhumanity to man is so possible and so plainly in evidence."

Governor Atkinson stated tonight that the report was just what he had expected. He will refer the matter to the legislature and thinks they will take action. The twenty year convict lease expires two years hence.

The Jefferson, Richmond, Va., is conducted strictly upon the European plan for the summer months, with cafe charges as moderate as any first class restaurant in the state. Good rooms can be had for \$1.50 per day and upwards.
